

Visiotech VC-2

- SUPER HD
- WIDE-ANGLE
- BUILT-IN WI-FI
- AES-256 ENCRYPTION
- 14hr RECORDING
- BUILT-IN GPS

Long Recording Time and Easy to Use

The Visiotech VC-2 is a wearable video recording solution with up to 14 hours of recording time and built-in GPS location recording.

With its AES-256 video encryption coupled with Super High-Definition video and incredible low-light capability, lone workers, law enforcement and security agencies can better protect their people and assets.

With VisioTech's Digital Evidence Management Software and convenient drop-in docking station, charging and management of recorded data is made easy, secure and intuitive.

FEATURES

This lightweight body camera packs a punch with its state-of-the-arts features. Press record and capture the truth securely and know your integrity is never questioned. The simple intuitive control allows users to capture video, audio and photographs. Go back in time with the cameras pre-event recording feature which automatically attaches up to 30 seconds of buffered evidence from before the record button was pressed.

The Visiotech VC-2 Body Camera comes equipped with integrated GPS tracking hardware. Location metadata is recorded with video and is displayed on playback to further enhance the captured evidence.

ADVANCED ENCRYPTION STANDARD (AES256)

Data is stored on the integrated 64GB solid-state drive and encased in a robust IP67 housing that can withstand even the harshest conditions. Trust your stored video with the inbuilt Advanced Encryption Standard (AES-256), adopted by the U.S. government and other intelligence organizations across the world, this high-end encryption standard ensures the integrity of your data. An optional feature of this device is a unique encryption key which can be set for your specific organisation.

FULL 2.7K HD RESOLUTION VIDEO SENSOR

The Visiotech VC-2 Body Camera comes equipped with a 2304 x 1296 pixel resolution 2.7K sensor. That means the body camera records video at over 50 percent more pixels than the standard 1080p. As a result, this bodycam can capture a crystal-clear image of a license plate, faces, features and more from a significantly farther distance than 1080p.

AUTOMATIC INFRA-RED HIGH OUTPUT NIGHT VISION

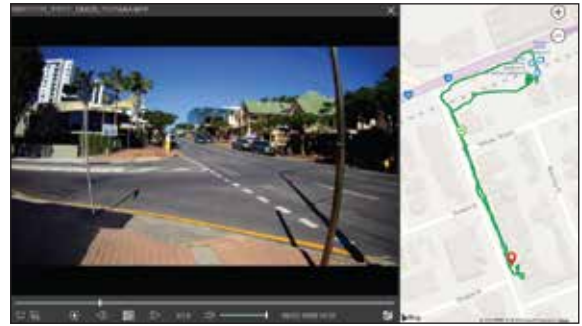

The Visiotech VC-2 Body Camera is equipped with a low-light HD video sensor that records 2.7k HD colour video and snaps photos at a detailed 32 Megapixels.

Infrared night vision picks up details in complete darkness and with Visible Face Detection up to 10 metres. The camera's 140-degree wide angle lens records peripheral images to avoid important evidence that would otherwise be off camera

DEMS-DOCK V2 SOFTWARE:

Visiotech's single and multi-port dock and charge stations combined with the DEMS-Dock software automate body camera data management and ensure the cameras are charged and available for use at the start of every shift.

Users simply dock their body camera at the end of their shift and the docking station automatically connects to the camera and uploads the data stored on the camera. Video and Audio files together with Photos and GPS meta-data are managed by Visiotech's DEMS-Dock software. Once data is uploaded to the local DEMS machine, optional file management features then prepare the body camera for the next shift.

VISIOTECH'S DEMS DOCKING STATION FEATURES:

- Dock and walk-away automated camera management
- User access password protection
- File management and file encryption
- Playback supports encrypted and non-encrypted video files
- Encryption key is programmable and unique for your site
- Review and Tag incident footage
- Export of incident footage
- GPS Location displayed on map during playback
- Fast 3.5 hour charge

SPECIFICATIONS

Encryption	AES-256 Video Encryption
Password Protection	Restricted File Deletion
Watermark	User ID, Date/Time Stamp, GPS coordinates embedded into video. Includes 7-digit Device ID and 6-digit User ID
GPS Tracking	Supported in recording
Camera	Capture crystal clear recording of license plates, faces and features together with high quality audio on this Super High Definition Day/Night Camera. <ul style="list-style-type: none"> • One Button Touch Recording Operation • 32 Megapixel snap photos while recording • Wide angle of view, 140 Degrees • H.264 Video Compression • G.711 / G.726 Audio Compression • WDR technology, Electronic Image Stabilisation, Electronic Shutter • Dewarp processing for wide angle lens
Recording Resolution	Main stream: 2304x1296p@30fps; 1920x1080p@30fps; 1280x720@30fps & 60fps Recording content: Video and Audio
Pre-Event Recording	Configurable
Storage Capacity	64GB
Night Vision	Auto/Manual IR LED <ul style="list-style-type: none"> • Up to 10 Metres with Visible Face Detection, light Sensitivity 0.0LUX with IR
Battery	<ul style="list-style-type: none"> • Continuous recording Time: 11-14 hours • Charge time: 3.5 hours • Built-in 4000mAh Li-ion Battery • Battery charge LED indicators
Transmission	Wi-Fi 802.11 a/b/g/n 2.4G
Data Port	Docking port
Interface Protocol	RTSP
Ruggedised Case	The rugged ballistic shell made for law and security agencies is weather resistant and can handle the most extreme conditions. Its rugged clip attaches to any pocket, belt, lapel, collar, placket, and most protective armor. <ul style="list-style-type: none"> • Light weight 164 Grams (inc battery) • IP66 weather resistant Case • Working temperature -20 to +60 Degrees Celsius • 360 degrees Rotatable Clip
Dimensions	H81mm x W56mm x D27mm
Drop-in Dock	Single and 8 Port Docking Stations Available
OS	Linux with NTK chipset
Standard Accessories	USB Cable, Drop-in Dock Charger, Rugged Clip
Optional Accessory	8-Port Docking station (model DS8PVC)
